The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. Continuation of 11. does NOT place the application in condition for allowance because: The amendments are sufficient to overcome the 112, 2nd paragraph rejection. However, the rejection in view of Pall et al. and Halker are maintained. Applicant argues that Halker does not relate to filtration processes. This argument is not persuasive because Halker specifically discloses that its invention is useful in a filter (abstract). Therefore, there is motivation to combine the two references. Furthermore, one having ordinary skill in the art would have optimized the fiber diameter and fiber density, motivated by the desire to create a mesh with the desired filtration properties. Therefore, the prior art rejection is maintained.
